Summary

Full-stack web developer with front-end skills and back-end proficiency, a quick learner with passion for efficient and effective app development. Especially interested in UX/UI betterment.

Technical Skills

Languages: CSS, HTML, JavaScript, jQuery
Databases: MySQL, MongoDB
Tools: Git, Node.js, Heroku, AWS, Express.js, express-handlebars, Passport.js, sequelize.js, React.js

Projects

The "Stop Using Notes App" App: https://github.com/longhike/post-project ; https://morning-headland-82232.herokuapp.com/
- If you, like me, use the "Notes" or similar app to keep track of links and thoughts but struggle to keep them organized or remember why you put them there in the first place, then this is the app for you
- A user with an account can log in and post new links, view already posted links on a feed, and delete any posts they've made
- Future updates: Welcome the individual user by username on the homepage; link section of form to be further developed to read URL to implement imbed formatting for post

"Get Sad" Covid-19 Stats App: https://github.com/longhike/covid-totals ; https://covid-stat-sad.herokuapp.com/
- An app to get the user global COVID-19 statics from Johns Hopkins University, using a third party API
- Future updates: Add search-by-location feature; render date in US formatting; after Dec 31 2020, include a year input to select between 2020 and 2021.

Star Wars Quiz App: https://github.com/longhike/starwars4u ; http://starwars4u-env.eba-i9zrhymm.us-east-2.elasticbeanstalk.com/
- A fun, timed quiz to test the user's Star Wars knowledge
- Future updates: Add high scores functionality; add more questions; add a form to let users add questions to the quiz

Password Generator App: https://github.com/longhike/password4u ; http://password4u-env.eba-ybnfmahx.us-east-2.elasticbeanstalk.com/
- A useful app to generate passwords

Experience

Covington & Burling LLP   Washington, DC
Coordinator, Professional Development   December, 2018 – August, 2020
- Coordinated firm-wide evaluations processes for associates, counsel, and advisers; mastered the ViGlobal evaluations database platform, which uses both an SQL-style database for queries and HTML/CSS for e-mail functionality
- Worked closely with the firm Evaluation, Executive, and Management Committees; supervised the Administrative Assistant

Administrative Assistant, Professional Development   May, 2017 – December, 2018
Temporary Administrative Assistant, Professional Development   March – May, 2017

- Catch-all administrative portfolio, including the coordination of partner committee meetings, associate and counsel evaluations processes and associated developmental meetings, and attorney trainings with outside consultants
- Tracked and maintained department budget, databases, rosters, and records

Irell & Manella LLP
<div align="right">Los Angeles, CA</div>
